Boston, MA | deshpande.ved1@northeastern.edu | +1 640-212-8385 | linkedin | github | vedsite.com

Education

Northeastern University **Expected May 2028**
Candidate for B.S. Computer Science, Minor in Mathematics *GPA: 3.4/4*
Relevant Coursework: Object-Oriented Design, Computer Systems, Foundations of Data Science, Algorithms

Technical Skills

Languages: Java, Python, TypeScript, JavaScript, Go, C, SQL, Assembly, LISP, HTML, CSS, LaTeX
Tools: React.js, React Native, Next.js, Node.js, Flask, PostgreSQL, Supabase, Docker, Linux, Cloudflare, Git

Experience

Colère Nu **Boston, MA**
Platform, API & Data Engineering Intern *July 2026 - December 2026*
- Building the company's iOS and Android member app from **0 to 1** in **Expo (React Native)** and **TypeScript** from one codebase; shipped one-time-code sign-in, native tab navigation and live member data on both platforms
- Designing the versioned **REST API** layer on **Next.js** and **Supabase (PostgreSQL)** with bearer-token auth and row-level security, as sole owner of the API and data layer
- Load-tested serverless Postgres access (**100** concurrent requests, **11** connections); audited **47** schema migrations

Northeastern Club Squash **Boston, MA**
Vice President *September 2024 - Present*
- Run inter-club operations and east coast match scheduling; competed at **CSA Nationals** 2025

Khoury FIRST **Boston, MA**
Program Alumni & Co-Facilitator *September 2024 - Present*
- Mentor first-generation **Khoury College** students; led workshops for **30+** incoming freshmen in Spring 2026

TalentHome Solutions LLP **Mumbai, India**
Software Development & Social Media Marketing Intern *June - August 2023*
- Integrated **React.js** and **MongoDB** into web projects and revised the internal inventory database

Projects

Patrick, AINU Chatathon Runner-up – **vedsite.com/projects/patrick** *September 2026*
- Co-built in one day an **AI** patent-research agent that turns an invention description into a sourced brief for a founder's first attorney meeting; **$300** runner-up in the Misneach track
- Wrote the frontend, AI output contract and **LaTeX/PDF** export; **62** tests, **Vercel** + **Cloudflare Tunnel**

Self-Hosted Homelab & Portfolio – **vedsite.com/projects/homelab** *December 2025 - Present*
- Run a **Raspberry Pi 5** server hosting **Docker** services (NAS, **Home Assistant**, this site's API, SquashHub) behind **Cloudflare Tunnel** and **Tailscale**, with nightly snapshot backups; migrated off **AWS EC2**
- Built the **Flask** API behind vedsite.com (**Spotify**, **Last.fm**, **Letterboxd**, OAuth token refresh) with self-updating search over **11,000+** songs; SSH portfolio in **Go** (Bubble Tea, Wish)

NEU SquashHub – **vedsite.com/projects/squashhub** *November 2025 - Present*
- Constructed open-source web application for NEU Club Squash featuring a custom self-service attendance tracking system enabling real-time check-ins for practices and matches, reducing attendance recording error rates by **40%**
- Lead developer (**React.js**, **Express.js**, **PostgreSQL**): deploys, code reviews and tickets for **35 DAUs**

stopeating.pizza – **vedsite.com/projects/stopeating** *July 2026*
- Built a grocery receipt to health report web app in **TypeScript**, **Next.js** and **Supabase**: OCR-first parsing with a vision fallback, nutrition data cached in **PostgreSQL**
- Implemented the official **Nutri-Score** grader: matches Open Food Facts on **100%** of **728** products; **145** tests

Extracurriculars & Interests

2016 Hong Kong Roller Skating Youth Champion
ANU Stem Boxes 2023 Winner
TEDxYouth@PPSIJC Host
Film, TV, Music, Squash, Philosophy
